Overview

The Online Enrollment System (enroll) is a fully functional web application designed to provide a platform for students to enroll in courses, view schedules, and manage their academic profiles. The system is built using Laravel, a PHP framework that follows the MVC (Model-View-Controller) architecture, ensuring a clean separation of concerns and efficient development practices.

This system is designed to be user-friendly and responsive, with features tailored for students, teachers, and administrators. It supports user registration, course management, teacher assignments, enrollment, schedule management, and detailed reporting.

Technologies Used

- Frontend: HTML, CSS, JavaScript, Blade (Laravel templating engine)
- Backend: PHP (Laravel Framework)
- Database: MySQL
- Authentication: Laravel's built-in Auth system (Login/Registration)
- Deployment: Hosted on a server (production-ready)

Features

1. User Registration/Login

Students must create an account and log in to the platform in order to enroll in courses.

Authentication uses Laravel's built-in authentication system.

The system supports email verification for account validation.

2. Admin Dashboard

UNIVERSITY OF SCIENCE AND TECHNOLOGY OF SOUTHERN PHILIPPINES
Alubijid | Cagayan de Oro | Claveria | Jasaan | Oroquieta | Panaon
**COLLEGE OF INFORMATION TECHNOLOGY AND
COMPUTING: DEPARTMENT OF INFORMATION
TECHNOLOGY**

Admin has access to a comprehensive dashboard to manage courses, users, and teacher assignments.

Reporting features (charts and analytics) allow the admin to track enrollments, course loads, and user activity.

Admin can manage users, including assigning roles (Student, Teacher, Admin).

3. Course Management (CRUD)

Admin can create, read, update, and delete courses.

Each course includes key details like course code, title, description, credit units, and instructor assignments.

4. Teacher Assignment

Admin can assign teachers to specific courses, ensuring that the course schedule is properly managed.

5. Enrollment System

Students can view available courses and enroll in them, provided they meet the course prerequisites.

Enrollment validation ensures that students cannot enroll in courses that conflict with their schedules or exceed the allowed number of enrollments.

6. Schedule Management

Every course is associated with a specific schedule (day of the week, start time, and end time).

Admin manages course schedules, while students can view their enrolled courses and the associated timeslots.

7. View Enrolled Courses

Students can view a list of the courses they are currently enrolled in.

8. Data Validation

All course and enrollment forms have strict validation rules (e.g., required fields, correct formats).

Validation ensures that only valid and complete data is submitted.

System Architecture (MVC Usage)

Model

- Represents the data and business logic of the application
- Manages database interactions through an ORM layer
- Implements data validation and business rules
- Key models include: User, Course, Enrollment, Program, Section, Schedule

View

- Presents data to users through responsive web interfaces
- Utilizes modern front-end frameworks for dynamic UI components
- Implements consistent design language across the application
- Key views include: Dashboard, Course Catalog, Enrollment Form, User Profile, Admin Panels

Controller

- Processes user input and coordinates system responses
- Mediates between Models and Views
- Implements authentication and authorization logic
- Key controllers include: UserController, CourseController, EnrollmentController, AdminController

Technical Stack

- Backend: PHP/Laravel
- Frontend: HTML5, CSS3, JavaScript, Bootstrap
- Database: MySQL
- Hosting: Local development server (127.0.0.1:8000)

Database Design (ERD Diagram)

The system uses a relational database with the following key entities:

Tables and Relationships

1. users

- Primary key: id (bigint)
- Fields: name, email, emailverifiedat, password, remembertoken, createdat, updatedat, avatar, profilepicture
- Relationships: One-to-many with enrollments, courses, course_teacher

2. roles

- Primary key: id (bigint)
- Fields: name, createdat, updatedat
- Relationships: Many-to-many with users through role_user

3. role_user

- Primary key: id (bigint)
- Fields: userid, roleid, createdat, updatedat
- Junction table connecting users and roles

4. courses

- Primary key: id (bigint)
- Fields: userid, code, subjecttitle, unitslab, unitslecture, credit, description, createdat, updatedat, program_id
- Relationships: Many-to-one with users, many-to-many with programs, one-to-many with course_schedules

5. programs

- Primary key: id (bigint)
- Fields: name, code, yearlevel, semester, createdat, updated_at
- Relationships: Many-to-many with courses through course_program

6. course_program

- Primary key: id (bigint)

UNIVERSITY OF SCIENCE AND TECHNOLOGY OF SOUTHERN PHILIPPINES
Alubijid | Cagayan de Oro | Claveria | Jasaan | Oroquieta | Panaon
**COLLEGE OF INFORMATION TECHNOLOGY AND
COMPUTING: DEPARTMENT OF INFORMATION
TECHNOLOGY**

- Fields: programid, courseid, createdat, updatedat
- Junction table connecting courses and programs

7. courses

- Primary key: id (bigint)
- Fields: programid, name, maxstudents, createdat, updatedat
 - Relationships: One-to-many with enrollments, many-to-one with programs

8. enrollments

- Primary key: id (bigint)
- Fields: userid, sectionid, createdat, updatedat
- Relationships: Many-to-one with users, many-to-one with sections

9. course_teacher

- Primary key: id (bigint)
- Fields: userid, courseid, createdat, updatedat
- Relationships: Many-to-one with users, many-to-one with courses

10. course_schedules

- Primary key: id (bigint)
- Fields: courseid, dayofweek, starttime, endtime, createdat, updated_at
- Relationships: Many-to-one with courses

Key Relationships

- Users can have multiple roles through role_user junction table
- Users can create multiple courses
- Users can enroll in multiple sections
- Teachers are assigned to courses through course_teacher
- Courses can be part of multiple programs through course_program
- Courses can have multiple schedules
- Programs can have multiple sections
- Sections can have multiple student enrollments

Database Schema

This section describes the database structure of the Online Enrollment System (enroll). The system uses MySQL for data storage and follows the relational database model with foreign keys and many-to-many relationships.

1. Users Table

```
Schema::create('users', function (Blueprint $table) {
    $table->id();
    $table->string('name');
    $table->string('email')->unique();
    $table->timestamp('email_verified_at')->nullable();
    $table->string('password');
    $table->rememberToken();
    $table->timestamps();
    $table->string('avatar')->nullable();
});
```

2. Courses Table

```
Schema::create('courses', function (Blueprint $table) {
    $table->id();
    $table->foreignId('user_id')->constrained()->onDelete('cascade');
    $table->string('code')->unique();
    $table->string('subject_title');
    $table->integer('units_lab')->default(0);
    $table->integer('units_lecture')->default(0);
    $table->float('credit')->default(0);
    $table->text('description')->nullable();
    $table->timestamps();
});
```

3. Roles Table

```
Schema::create('roles', function (Blueprint $table) {
    $table->id();
```

```

8. Course-Program Table

```
Schema::create('course_program', function (Blueprint $table) {
    $table->id();
    $table->foreignId('program_id')->constrained()->onDelete('cascade');
    $table->foreignId('course_id')->constrained()->onDelete('cascade');
    $table->timestamps();
    $table->unique(['program_id', 'course_id']);
});
```

9. Enrollments Table

```
Schema::create('enrollments', function (Blueprint $table) {
    $table->id();
    $table->foreignId('user_id')->constrained()->onDelete('cascade');
    $table->foreignId('section_id')->constrained()->onDelete('cascade');
    $table->timestamps();
    $table->unique(['user_id', 'section_id']);
});
```

10. Sections Table

```
Schema::create('sections', function (Blueprint $table) {
    $table->id();
    $table->string('name');
    $table->foreignId('program_id')->constrained()->onDelete('cascade');
    $table->unsignedInteger('max_students');
    $table->string('load_type')->default('regular');
    $table->timestamps();
    $table->unique(['program_id', 'name']);
});
```

11. Course-Section Table

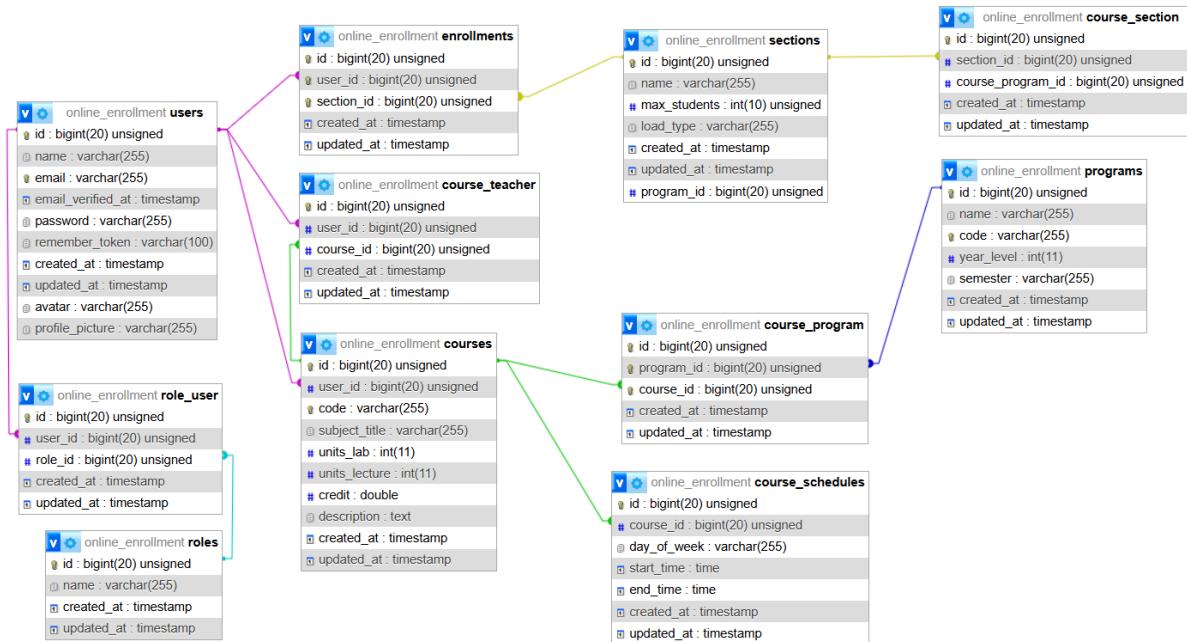

```
Schema::create('course_section', function (Blueprint $table) {
    $table->id();
```

```
$table->foreignId('section_id')->constrained()->onDelete('cascade');
$table->foreignId('course_program_id')->constrained()->onDelete('cascade');
$table->timestamps();
});
```

Application Flow

1. Admin registers the courses and assigns teachers.
2. Admin manages student enrollments by assigning students to sections.
3. Students can view available courses and enroll.
4. Once a student is enrolled, they can view the schedule of their courses.
5. Admin can view enrollment analytics, reports, and manage users.

- 3** Select the "Teacher" option.

The screenshot shows a registration form titled "ENROLL" at the top. A small graduation cap icon is positioned next to the title. Below the title, there is a dropdown menu labeled "Register as" with the option "Teacher" selected. This option is highlighted with a blue border and has an orange circle drawn around it. The form also includes fields for "Name", "Email", "Password", and "Confirm Password", each with its own input box. To the right of the form, there is a vertical sidebar with two buttons: one with a magnifying glass icon and another with a question mark icon.

- 4** Select the "Student" option.

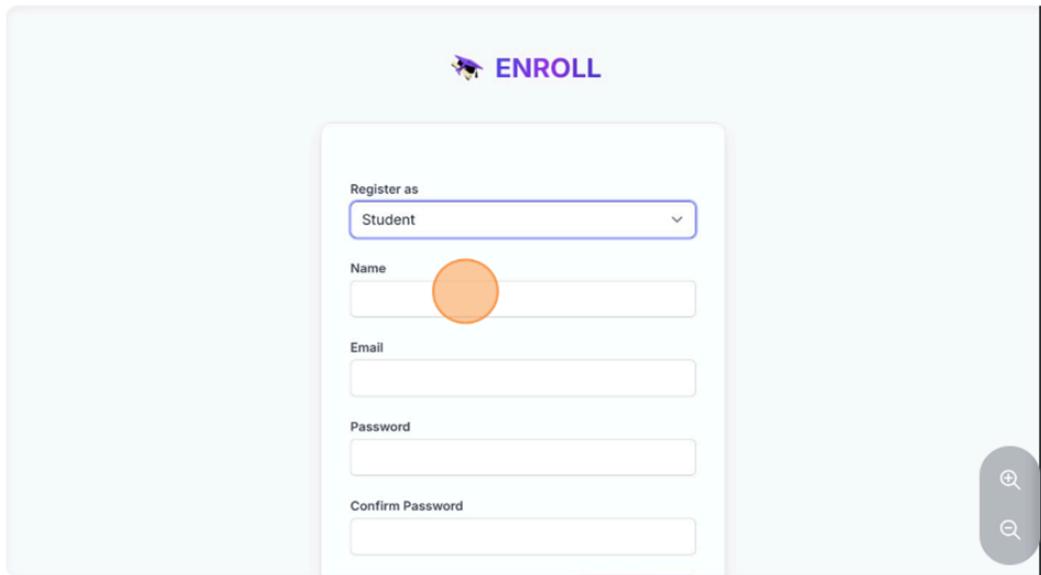

This screenshot shows the same enrollment form as the previous one, but with a different selection. The "Register as" dropdown menu now has the option "Student" selected, which is highlighted with a blue border and an orange circle. The other fields for "Name", "Email", "Password", and "Confirm Password" are present but not filled in. The sidebar on the right side of the form is identical to the first one, featuring a magnifying glass and a question mark button.

- 5** Click the "Name" field.

The screenshot shows a registration form titled "ENROLL" at the top right. The "Register as" dropdown is set to "Student". The "Name" field is highlighted with a red circle, indicating it is the target for step 5. Below it are fields for "Email", "Password", and "Confirm Password". To the right of the form are two grey circular buttons with a plus sign and a magnifying glass icon respectively.

- 6** Click the "Email" field.

The screenshot shows the same registration form after the "Name" field has been clicked. The "Name" field now contains the text "samplestudent" and is highlighted with a blue border. The "Email" field is highlighted with a red circle, indicating it is the target for step 6. The other fields ("Password" and "Confirm Password") and the registration buttons ("REGISTER" and "Already registered?") are visible below.

- 7 Click the "Password" field.

A screenshot of a web-based registration form. The form fields are as follows:

- Register as: Student (dropdown menu)
- Name: samplestudent
- Email: samplestudent@gmail.com (highlighted with a blue border)
- Password: (empty input field)
- Confirm Password: (empty input field)
- Already registered? (link)
- REGISTER button

The "Password" field is highlighted with an orange circle.

- 8 Click the "Confirm Password" field.

A screenshot of the same registration form after the password has been entered. The fields now show:

- Register as: Student (dropdown menu)
- Name: samplestudent
- Email: samplestudent@gmail.com
- Password: *****
- Confirm Password: ***** (highlighted with a blue border and an orange circle)
- Already registered? (link)
- REGISTER button

The "Confirm Password" field is highlighted with an orange circle.

9 Click "Register"

A screenshot of a registration form. The 'Register as' dropdown is set to 'Student'. The 'Name' field contains 'samplestudent'. The 'Email' field contains 'samplestudent@gmail.com'. The 'Password' and 'Confirm Password' fields both contain '*****'. A blue button labeled 'REGISTER' is at the bottom right, with a red circle highlighting it.

10 Click "My Enrollments"

A screenshot of a user profile page. The sidebar on the left has options: ENROLL (highlighted in purple), My Enrollments (highlighted with an orange circle), and Certificate of Registration. The main area shows the user's profile: samplestudent (samplestudent@gmail.com). Below that are Profile and Log Out links. The central content area is titled 'My Enrollments' and displays a message: 'You are not enrolled in any sections.' Below this is a table titled 'Available Sections:'.

11 Click "Enroll"

The screenshot shows the 'ENROLL' section of the USTP system. On the left, there's a sidebar with 'My Enrollments' (selected), 'Certificate of Registration' (highlighted with an orange circle), 'Profile', and 'Log Out'. The main area is titled 'My Enrollments' and displays a message: 'You are not enrolled in any sections.' Below this, a table titled 'Available Sections:' lists two rows:

Program Code	Section Name	Enrolled	Max Students	Actions
BSCS_IS1	BSCS_IR1	2	30	<button>Enroll</button>
BSCS_IS1	BSCS_IIR1	0	30	<button>Enroll</button>

12 Click "Certificate of Registration"

The screenshot shows the same 'ENROLL' section as before. Now, 'Certificate of Registration' is highlighted with an orange circle. The main area displays a success message: 'Enrolled successfully!' followed by a table:

The main area displays a table of users with columns: Name, Email, Role, and Date. The last row shows a user named 'sampleteacher' with the email 'sampleteacher@gmail.com'. To the right of this row are 'Edit' and 'Delete' buttons. A large orange circle highlights the 'Delete' button for the 'sampleteacher' row. Above the table, a message 'Deleted Successfully' is displayed in a blue circular badge. The bottom of the table shows a pagination bar with pages 1 through 6.

Admin teacher assignment

1 Click "Assign Teachers"

The screenshot shows the 'Assign Teachers' section of the web application. On the left sidebar, 'User Management' and 'Assign Teachers' are both highlighted with orange circles. The main area displays a table titled 'Teacher-Course Assignments' with columns: COURSE CODE, SUBJECT TITLE, ASSIGNED TEACHERS, and ACTIONS. The table lists four entries:

COURSE CODE	SUBJECT TITLE	ASSIGNED TEACHERS	ACTIONS
IT223	Web Systems and Technologies	• Euna DuBuque • Justine Jude Bardinas	Edit Remove
CS101	Introduction to Computer Science	• Euna DuBuque • Justine Jude Bardinas	Edit Remove
CS102	Object-Oriented Programming	• Jaleel Turcotte MD • Justine Jude Bardinas	Edit Remove
CS103	Data Structures and Algorithms	• Ms. Wendy Dietrich • Jaleel Turcotte MD	Edit Remove

To the right of the table are two search icons: a magnifying glass and a plus sign. The top right corner of the main area has a purple 'ALT' button.

4 Click "Edit"

The screenshot shows the 'Teacher-Course Assignments' page. On the left, there's a sidebar with 'Dashboard', 'Academic', 'Users' (with 'User Management' and 'Assign Teachers' sub-options), 'Student Enrollments', and user profile information for 'admin'. The main area displays a table of assignments. One assignment for 'Mobile Application Development' (Course Code: CS110) is listed, with a list of assigned teachers including 'Prof. Jettie Donnelly', 'Mrs. Annabell Olson', 'Prof. Anissa Blick III', and 'sampleteacher'. To the right of the table are 'Edit' and 'Remove' buttons, with the 'Edit' button circled in orange. Below the table, it says 'Showing 11 to 11 of 11 results'.

5 Click "Replace Teacher"

The screenshot shows the 'Replace a Teacher' page. The sidebar is identical to the previous screenshot. The main area has a section titled 'Replace a Teacher' with two dropdown menus: 'Old Teacher' set to 'sampleteacher' and 'New Teacher' set to 'Mr. Daren Pouros'. A large orange circle highlights the 'REPLACE TEACHER' button at the bottom of the form. At the bottom of the page, it says '© 2025 online_enrollment. All rights reserved.'
